

Sébastien Grans

Senior PHP/Laravel Engineer | Cloud Architecture · Technical Discovery

Lozère, France · Fully remote across EMEA · CET timezone · Available for occasional travel

sebastien.grans@gmail.com · [LinkedIn](#) · [GitHub](#) · [Full CV](#)

Target role: **Solutions Engineer** — EMEA, Laravel

Profile

Senior back-end engineer with **8+ years of professional PHP experience** across Laravel and Symfony. I build, explain and operate production applications, APIs and asynchronous systems, from technical discovery and architecture through deployment, monitoring and incident resolution.

My background is in product engineering and technical leadership rather than a formal pre-sales role. I bring hands-on Laravel delivery, cloud and production fluency, clear technical documentation, and experience translating incomplete business requirements into practical solutions with CTOs, Product Owners, developers and external partners.

Core Skills

Laravel and application engineering: PHP 8 · Laravel · Symfony · API Platform · REST/OpenAPI · Eloquent/Doctrine · queues/workers · WebSockets · authentication and authorisation

Cloud and production: AWS · Kubernetes · Docker · Linux · networking fundamentals · MySQL/MariaDB · PostgreSQL · Redis · ELK · Grafana · Sentry · performance and incident investigation

Technical communication: discovery and requirement clarification · architecture discussions · technical documentation · workshops · code review · mentoring · stakeholder collaboration

Quality and delivery: PHPUnit · Behat · PHPStan/Larastan · Git · GitHub/GitLab CI/CD · controlled rollouts · human-reviewed AI-assisted workflows

Professional Experience

Evina — Senior Back-End Developer

June 2022–June 2024 · Full remote · Cybersecurity and mobile payments

- Developed and operated production PHP/Laravel services supporting fraud prevention, mobile-payment flows and real-time processing in a multi-region environment.
- Worked across REST APIs, queues, workers, WebSockets, MySQL and Redis, with Kubernetes-based delivery and production monitoring through ELK and Grafana.
- Integrated Auth0 and Laravel Sanctum across several applications and contributed to security, API compatibility, performance and service-continuity decisions.
- Investigated incidents end to end, explained technical constraints, reviewed code daily and supported developers across the delivery lifecycle.
- Collaborated in an international remote environment and delivered technical workshops in English.

Sapiendo — Back-End Developer / DevOps

February 2021–May 2022 · Full remote · Business automation

- Designed a JWT-secured Symfony/API Platform service for asynchronous PDF-to-XML processing, including REST endpoints, callbacks, tests and technical documentation.
- Translated incomplete business requirements into deliverable API and automation solutions with the CTO and Product Owner.
- Built Laravel business features and coordinated integrations with an external provider.
- Supported Docker, GitLab CI/CD, AWS CloudWatch and Sentry workflows across multiple environments.

Earlier Experience

- **Groupe Blachère — Back-End Developer (Dec. 2020–Jan. 2021):** Symfony, domain modelling, optimisation algorithm, automated tests and PHPStan.
- **SensioLabs — Symfony Developer (2018):** Symfony/API Platform integrations, Microsoft Graph, RabbitMQ, Redis, JWT, PHPUnit, Behat, Docker and CI.
- **Norsys — PHP/Symfony Developer and Technical Referent (2013–2018):** client applications for Decathlon, Fiducial, Technal and Franprix; technical guidance, architecture support, code reviews and mentoring.

Side Projects

Sonomundi — Laravel/Vue Event Platform

July 2024–Present · Side project, now largely automated

- Built a Laravel/Vue 3/TypeScript product with REST/OpenAPI, MySQL, Redis, asynchronous jobs, automated tests, Docker and CI/CD validation.
- Own the architecture, implementation and documentation, using controlled AI-assisted workflows with executable checks and human review.
- Use the working product to explore technical trade-offs, integration behaviour and clear demonstrations of product capabilities.
