Senior PHP backend developer | Laravel/Symfony | Full remote from France

Location: France

CV complet : <https://axxon.github.io/>

Target role: Lead Developer / Lead Engineer Fullstack assisté par IA (H/F). France

Targeted Summary

Senior PHP/Laravel/Symfony backend developer focused on product delivery, code quality and production reliability. I work from requirement clarification to production release on web applications, APIs and business-critical services.

I am effective in full remote environments through clear writing, asynchronous communication, documentation, incremental delivery and strong ownership.

I use AI as a controlled accelerator for analysis, implementation, documentation, tests and audit, with human review and technical validation.

Offer alignment: IA.

Technical Skills

- IA

Professional Experience

Sonomundi - Laravel/Vue product project and controlled AI workflows

2024-07 - 2026

- Product engineering project using Laravel, Vue 3, TypeScript, OpenAPI, Docker, tests, Markdown specs, Codex, MCP, Paperclip and human validation.
- Relevant to this role: IA.

Relevant Projects and Achievements

- Sonomundi: Laravel/Vue 3/TypeScript product project with OpenAPI, Docker, Markdown specifications and controlled AI workflows when relevant to the role.
- Backend delivery: requirement clarification, incremental implementation, review, tests, documentation and production release.
